To: Local Media Sources

On Wednesday, September 8, you received a Media Advisory from my office regarding a press conference today at 2:00 p.m. at the Greensboro Historical Museum. I am very excited about the program which is being unveiled, as I believe many Greensboro citizens will be. It was my intent that all media would receive this information simultaneously, and I regret that some of the information was subsequently revealed to our citizens prematurely by a local media source.

Nevertheless, I strongly encourage your representatives' attendance today as I unveil the entire project and give each of you an opportunity to ask questions and to meet Mayor William Johnson from Rochester, NY, who will join me at the press conference. Mayor Johnson will have inspiring stories to tell of his city's experience with this innovative program. In addition, those who have been and will be instrumental in this endeavor will be recognized. Thank you in advance for your assistance.

Keith A. Holliday
Mayor, City of Greensboro
